As a mathematically-inclined Software Developer, with an analytical mind and a knack for problem solving, opportunities to engage my artistic creativity are limited. I perceive software development as the bridge between creativity and design which culminates into the production of robust, yet aesthetically pleasing full stack applications. With a well rounded knowledge of the web development field I hope to join an organization that can continue to foster my growth.

**Languages:** JavaScript, Python, PHP, Java  
**Supplements:** HTML, CSS, JQuery, React, Express, PostgreSQL, Node, Vue, Wordpress, Greensock  
**Tools:** Git, Postico, Postman, Zeplin, Sketch, Eclipse, Trello, Jira, Sourcetree  
**Operating Systems:** Windows, Mac OS

## EXPERIENCE

- Junior Developer, Deutsch NY, New York, NY.** Fall 2019 – Present
- Transformed design files, and concepts from clients, into informative websites as well as engaging visual experiences and tools to promote their product to its respective consumer base
  - Contributed to the redesign and relaunch of the company's brand identity in a team composed of developers, UX/UI designers, project managers, and creative directors
  - Employed various languages, frameworks, and technologies to flesh out prototypes to win new business
  - Deployed code across the stack, from front end frameworks to backend databases, as both an individual and as part of a development team in an iterative, QA-focused cycle
- Web Development Fellow, General Assembly, New York, NY** Winter 2018 - Spring 2019
- Developed full stack web applications and games from conception, wireframing, ERD modeling, and scoping the MVP to execution and deployment
  - Worked collaboratively with fellow developers and a UX team utilizing the Agile process, Scrum, Pair Programming, Code Review, and Git version control to design and develop a restaurant's promotional website
- Front End Web Development, Per Scholas, Bronx, NY** Fall 2018 - Winter 2018
- Designed and built out front end websites and applications serving a variety of purposes such as promotional, entertainment, informational, and practical
  - Collaborated with developer peers as well as individually to create truly unique designs and experiences

## EDUCATION
